from European private equity firm Bridgepoint and Swedish media group Bonnier Holding in an all-cash transaction valued at SEK 8,250 million (\$929 million USD)(2).

Recent Equity Offering

In connection with the acquisitions of Odeon/UCI and Carmike, and the planned acquisition of Nordic, in February 2017 AMC raised more than \$640 million of additional equity through the sale of 20,330,874 shares of the Company's Class A common stock, par value \$0.01 per share, at \$31.50 per share.

The net proceeds of the offering were approximately \$618.0 million after deducting underwriting commissions and before deducting estimated offering expenses. AMC used the net proceeds from this offering to repay \$350 million principal amount of outstanding bridge loans incurred in connection with its completed acquisition of Carmike Cinemas, Inc. and intends to use the remaining proceeds to finance a portion of the previously announced acquisition of Nordic. If the Nordic acquisition is not consummated, AMC will use the net proceeds from the offering for general corporate purposes.

(1) We present Adjusted EBITDA as a supplemental measure of our performance. We define Adjusted EBITDA as net earnings plus (i) income tax provision, (ii) interest expense and (iii) depreciation and amortization, as further adjusted to eliminate the impact of certain items that we do not consider indicative of our ongoing operating performance and to include any cash distributions of earnings from our equity method investees. These further adjustments are itemized above. You are encouraged to evaluate these adjustments and the reasons we consider them appropriate for supplemental analysis. In evaluating Adjusted EBITDA, you should be aware that in the future we may incur expenses that are the same as or similar to some of the adjustments in this presentation. Our presentation of Adjusted EBITDA should not be construed as an inference that our future results will be unaffected by unusual or non-recurring items. Adjusted EBITDA is a non-GAAP financial measure and should not be construed as an alternative to net earnings as an indicator of operating performance or as an alternative to cash

flow provided by operating activities as a measure of liquidity (as determined in accordance with U.S. GAAP). Adjusted EBITDA may not be comparable to similarly titled measures reported by other companies. We have included Adjusted EBITDA because we believe it provides management and investors with additional information to measure our performance and estimate our value.

Adjusted EBITDA has important limitations as an analytical tool, and you should not consider it in isolation, or as a substitute for analysis of our results as reported under U.S. GAAP. For example,

Adjusted EBITDA:

- does not reflect our capital expenditures, future requirements for capital expenditures or contractual commitments;
- does not reflect changes in, or cash requirements for, our working capital needs;
- does not reflect the significant interest expenses, or the cash requirements necessary to service interest or principal payments, on our debt;
- excludes income tax payments that represent a reduction in cash available to us; and

-
- does not reflect any cash requirements for the assets being depreciated and amortized that may have to be replaced in the future.

- (2) Amounts represent reopening expense related to temporarily closed screens under renovation, theatre and other closure expense for the permanent closure of screens including the related accretion of interest, non-cash deferred digital equipment rent expense, and disposition of assets and other non-operating gains or losses included in operating expenses. We have excluded these items as they are non-cash in nature, include components of interest cost for the time value of money or are non-operating in nature.
- (3) Other expense for the prior year quarter and prior year related to the cash tender offer and redemption of the 9.75% Senior Subordinated Notes due 2020 and Term Loan due 2022. We exclude other expense and income related to financing activities as the amounts are similar to interest expense or income and are non-operating in nature.

NOTICE

Subsequent to the original issuance of this commentary on February 28, 2017, developments caused the need to update certain contents. This updated and revised commentary fully restates the original commentary incorporating the changes outlined below.

On March 8, 2017, we reached an agreement to settle litigation that was pending as of December 31, 2016, giving rise to a recognized subsequent event resulting in an increase of \$7,000,000 in other general and administrative expenses for the fourth quarter and full year ended December 31, 2016. As a result, net earnings were reduced by \$4,270,000 and diluted earnings per share were reduced by \$0.04 for both the fourth quarter and full year ended December 31, 2016. U.S. markets and consolidated adjusted EBITDA were each reduced by \$7,000,000 for the same periods.

The Fourth Quarter/Year-End 2016 Earnings Conference Call recording available on our website does not reflect the impacts of the updates and revisions contained herein.

Summary

We are very pleased with our record setting 2016 results. The year, and particularly the fourth quarter, were highlighted by the relaunch of our new website and mobile app, the continued rapid growth of our new AMC Stubs loyalty program, the acceleration of our recliner and premium large format deployment, the completion of two transformative acquisitions, and the negotiation of a definitive agreement to acquire Nordic Cinemas Group, which is expected to close in the first half of 2017. As pleased as we are about 2016, we are even more excited about our prospects for leveraging our proven strategic growth initiatives across a significantly larger domestic and international platform and against the backdrop of potentially record breaking industry box office years in 2017 and 2018.

Year ended December 31, 2016

2016 was another record year as the domestic box office grew approximately 2% to \$11.4 billion dollars compared to 2015, marking the fourth time in the last five years that the industry has set a new all-time high. *Finding Dory* led the charge in 2016, also becoming the highest grossing animated film, and the 8th largest film of all-time. Not to be outdone, the fourth quarter's *Rogue One: A Star Wars Story* became the 7th highest grossing film of all-time, but could not overcome last year's fourth quarter sensation, *Star Wars: A Force Awakens*, the highest grossing domestic film ever. Rounding out the top five films for the year were *Captain America: Civil War*, *The Secret Life of Pets*, and *The Jungle Book* — a strong family oriented slate.

Consolidated Results

During the fourth quarter we completed the transactions to acquire Odeon & UCI Cinemas Holdings Ltd. in Europe, and Carmike Cinemas, Inc. in the United States. Based on the increases in attendance from these two acquisitions, our 2015 Starplex acquisition, and the success of our AMC recliner renovations, enhanced food and beverage offerings, and premium large format ("PLF") auditoriums, we set records for all consolidated revenue categories in 2016.

Compared to 2015, consolidated admissions revenues for the year increased 8.3% to \$2.0 billion, while food and beverage revenues grew 12.0% to \$1.0 billion and other theatre revenues grew 15.6% to \$167.3 million. Total revenues grew 9.8% in 2016 to \$3.2 billion.

Total consolidated attendance for the year increased 9.3% to 215.1 million. Average ticket price declined less than 1.0%, primarily due to

lower 3D and IMAX attendance and average ticket prices at the Starplex and 2016 acquisition theatres.

Our enhanced food and beverage initiatives continued to shine in 2016 as consolidated food and beverage per patron increased 2.5% to \$4.74 despite the Starplex and 2016 acquisitions' lower food and beverage per patron metrics. Likewise food and beverage gross margin improved slightly to 86.0% compared to 2015.

2

AMC's consolidated film exhibition costs increased 6.7% to approximately \$1.1 billion, representing 53.2% of admissions revenue, or an 80 basis point improvement compared to last year. Consolidated operating expense was up 9.8% to \$873.5 million on a 13.4% increase in average screens but was essentially flat at 27.0% as a percentage of total revenues compared to 2015.

General and administrative expenses were up 125.0% to \$138.6 million as merger and acquisition expenses related to the Odeon and Carmike acquisitions increased \$44.5 million for the year. Merger and acquisition costs include \$10 million of transaction related compensation, including bonuses paid to certain members of management in recognition of their successful efforts to complete the acquisitions of both Odeon and Carmike Cinemas in 2016. The bonuses were funded by our largest shareholder and were recorded as a capital contribution. In addition, general and administrative expense for the year ended December 31, 2015 benefited from an \$18.1 million gain related to the termination of a post-retirement health benefit plan.

Despite an 8.0% increase in consolidated rent expense, due primarily to the acquisitions, rent per average screen was down 4.7%, reflecting the lower rents in our new smaller and mid-sized markets and an increase in capital and financing lease obligations.

Consolidated depreciation and amortization increased 15.1%, to \$268.2 million in 2016 compared to the same period last year. The increase was primarily attributable to an increase in depreciable assets resulting from our strategic growth initiative investments and the acquisitions.

Consolidated interest expense for the year increased 14.6% to \$121.5 million compared to 2015. The increase is related to the additional debt raised to fund the Odeon and Carmike acquisitions, and the assumption of their capital and financing lease obligations.

Consolidated net earnings for 2016 increased 7.5% to \$111.7 million, and diluted earnings per share ("EPS") increased 6.6% to \$1.13. Consolidated net earnings margin for 2016 was 3.5% compared to 3.5% in 2015. Included in 2016 net earnings for the year is a one-time \$19.0 million tax benefit related to tax positions associated with prior acquisitions. Also included in the 2015 net earnings and Adjusted EBITDA is the \$18.1 million gain mentioned above.

Consolidated Adjusted EBITDA for 2016 grew 12.2% to \$602.0 million, representing a 40 basis point improvement to 18.6% in Adjusted EBITDA margin compared to the prior year.

U.S. and International Segment Results

With the acquisition of Odeon on November 30, 2016, we have begun reporting certain metrics for the U.S. and International segments. U.S. segment results include the contributions of the Carmike theatres as of December 21, 2016 and International segment results include the contributions of Odeon theatres as of November 30, 2016.

Total U.S. revenues increased 6.0% to \$3.1 billion, with admissions revenues increasing 4.5% to approximately \$2.0 billion, primarily as a result of a 4.7% increase in attendance and an essentially flat average ticket price of \$9.59. International total revenues for 2016 were \$118.9 million with admissions revenues of \$76.7 million, and an average ticket price of \$8.04.

3

U.S. food and beverage revenues increased 9.1% to \$991.1 million, primarily as a result of our enhanced food and beverage initiatives, strategic price increases and increased attendance. U.S. Food and beverage revenues per patron for the year also increased 4.1% to \$4.82. U.S. food and beverage costs for 2016 increased 5.9% to \$135.7 million, and yielded a gross margin of 86.3%, 40 basis points higher than 2015. International food and beverage revenues were \$28.0 million, while food and beverage revenues per patron were \$2.94. International food and beverage costs were \$6.5 million and yielded a gross margin of 76.8%.

AMC's U.S. film exhibition costs for 2016 increased 3.5% to approximately \$1.1 billion, which represented 53.5% of admissions revenues, a decrease of approximately 50 basis points compared to 2015, consistent with film performance and scale effect. International film exhibition costs were \$33.8 million representing 44.1% of admissions revenues.

U.S. depreciation and amortization increased 10.0%, to \$256.1 million in 2016 compared to the same period last year. International depreciation and amortization was \$12.1 million.

U.S. Adjusted EBITDA for 2016 grew 6.9% to \$573.6 million compared to \$536.8 million in the year ago period, and International Adjusted EBITDA totaled \$28.4 million for the current year. Like in the U.S., the international holiday season generates some of the highest attendance of the year and is not indicative of attendance levels and results throughout the year.

Compared to the fourth quarter last year, the 2016 fourth quarter domestic box office fared better than initially expected given the incredible appeal of last year's #1 domestic grossing movie of all-time, *Star Wars: The Force Awakens*. The industry's domestic box office declined approximately 3.9%, with corresponding industry attendance declining approximately 4.9%, on a 1.5% increase in industry screens.

Consolidated Results

Based on the increases in attendance from our acquisitions and the success of our strategic growth initiatives, we set records for all consolidated revenue categories in the fourth quarter.

Compared to the fourth quarter of 2015, consolidated admissions revenues for the quarter increased 18.1% to \$588.9 million, while food and beverage revenues grew 16.6% to \$282.5 million and other theatre revenues grew 27.6% to \$54.7 million. Consolidated total revenues grew 18.1% in the fourth quarter to \$926.1 million.

When compared to the same quarter a year ago, total attendance increased 21.5% to 62.0 million and average ticket price for the quarter decreased 2.8% to \$9.50. The decrease in average ticket price is due primarily to a combination of factors, including a decline in 3D and IMAX attendance, and the impact of lower average ticket prices at the Starplex, Odeon and Carmike theatres. Excluding the effect of acquisitions, legacy AMC's average ticket price for the quarter increased 2.9% compared to the same period last year.

4

Legacy AMC theatres as a group represent some of the most productive theatres in the U.S. While adding the newly acquired theatres dilutes some operating metrics related to attendance, average ticket price and food and beverage per patron, it also highlights the opportunities available to be realized through the deployment of our strategic initiatives and operational expertise.

Our enhanced food and beverage initiatives continued to contribute in the fourth quarter. Several factors did dilute year-over-year comparison, including: 1) lower food and beverage spend at Starplex and Odeon theatres, and 2) the "big event" nature of *Star Wars: A Force Awakens* that drove such strong food and beverage growth last year. As a result, food and beverage revenues per patron declined 4.0% to \$4.56. Likewise, our food and beverage gross margin for the fourth quarter decreased approximately 50 basis points to 85.8% compared to the fourth quarter last year. It is important to note that the Carmike theatres positively contributed to both food and beverage revenues per patron and food and beverage gross margin. For legacy AMC theatres, excluding the impact from the acquisitions, both food and beverage revenues per patron and food and beverage gross profit per patron grew 2.2% respectively, and our food and beverage gross margin was flat at 86.3%.

During the fourth quarter, at legacy AMC theatres we deployed 20 new MacGuffin bars, 38 new Coca-Cola Freestyle® machines, nine new digital menu boards, and 10 new kiosks. At year-end, in total, AMC operated 23 dine-in-theaters and served alcohol at 244 locations.

AMC's consolidated film exhibition costs for the fourth quarter increased 13.2% to \$305.1 million compared to last year, and this represented 51.8% of admissions revenue, down 224 basis points compared to the fourth quarter last year.

Operating expenses for the fourth quarter were \$259.6 million, or 28.0% of total revenues as compared to \$207.5 million, or 26.5% of total revenues for the same quarter a year ago. Operating expenses increased primarily due to a 30.6% increase in average screens.

Consolidated rent expense for the fourth quarter increased 14.4% to \$136.2 million, on a 30.6% increase in the number of average screens, primarily related to the acquisitions. Rent per average screen for the fourth quarter declined approximately 12.4% compared to the same quarter last year, reflecting the lower rents in our new smaller, mid-sized markets and an increase in capital and financing lease obligations.

Consolidated general and administrative expenses for the fourth quarter increased \$46.9 million to \$64.6 million compared to the same quarter last year, as merger and acquisition expenses related to Odeon, and Carmike increased \$32.0 million. Merger and acquisition costs include \$10 million of transaction related compensation, including bonuses paid to certain members of management in recognition of their successful efforts to complete the acquisitions of both Odeon and Carmike Cinemas in 2016. The bonuses were funded by our largest shareholder and were recorded as a capital contribution.

Depreciation and amortization increased 37.7%, to \$82.5 million, and consolidated interest increased 58.7% to \$40.7 million in the fourth quarter compared to the same period last year. The depreciation and amortization and interest expense increases are due primarily to the 2016 acquisitions.

Consolidated net earnings for the fourth quarter declined 30.4% to \$29.0 million and diluted EPS decreased 31.0% to \$0.29 compared to the same quarter a year ago. Consolidated net earnings margin

5

for the fourth quarter was 3.1% compared to 5.3% in the fourth quarter of 2015. Included in net earnings for the fourth quarter was a one-time \$19.0 million tax benefit related to tax positions associated with prior acquisitions and approximately \$22.8 million of after-tax merger and acquisition expenses.

Consolidated Adjusted EBITDA for the fourth quarter grew 17.9% to \$181.6 million and Adjusted EBITDA margin decreased 10 basis points to 19.6% compared to the year ago period.

U.S. and International Segment Results

For our U.S. segment for the fourth quarter of 2016, total revenues increased 3.8% to \$812.0 million, with admissions revenues increasing 3.6% to \$515.3 million, primarily as a result of a 4.0% increase in attendance and a 0.4% decrease in average ticket price. International total revenues for the fourth quarter were \$114.1 million with admissions revenues of \$73.6 million.

U.S. food and beverage revenues increased 5.8% to \$255.8 million, and U.S. food and beverage revenues per patron for the quarter also increased 1.9% to \$4.84. U.S. food and beverage costs for the quarter increased 2.7% to \$33.9 million, and yielded a gross margin of 86.7%, 40 basis points higher than 2015. International food and beverage revenues were \$26.7 million, while food and beverage revenues per patron were \$2.93. International food and beverage costs were \$6.2 million and yielded a gross margin of 76.7%.

AMC's U.S. film exhibition costs for fourth quarter increased 1.4% to approximately \$272.8 million which represented 52.9% of admissions revenues, a decrease of approximately 120 basis points compared to 2015. International film exhibition costs were \$32.4 million representing 43.9% of admissions revenues.

U.S. operating expenses in 2016 increased 9.6% to \$226.4 million and represented 27.9% of revenues. International operating expenses totaled \$33.2 million.

U.S. rent expense for 2016 increased 6.3% to \$125.9 million, on a 12.9% increase in the number of average screens, primarily related to the Starplex and Carmike acquisitions. Rent per average screen declined approximately 5.8% compared to 2015. International rent expense was \$10.2 million.

U.S. depreciation and amortization increased 17.5%, to \$70.4 million in the fourth quarter compared to the same period last year. International depreciation and amortization was \$12.1 million.

U.S. Adjusted EBITDA for the quarter declined 0.8% to \$153.0 million compared to the year ago period, and International Adjusted EBITDA totaled \$28.5 million.

AMC Screens

During 2016, we opened 2 new theatres with a total of 17 screens and acquired 520 theatres with 5,201 screens, which includes the acquisition of Odeon and Carmike. We permanently closed 3 theatres with 38 screens, and temporarily closed 647 screens and reopened 599 screens to implement our strategy and install consumer experience upgrades. As of December 31, 2016, we owned or operated 906 theatres with 10,558 screens across 8 countries.

Capital Expenditures

Total gross capital expenditures for the year ended December 31, 2016 totaled \$421.7 million and after \$125.1 million of landlord contributions yielded net capital expenditures of \$296.6 million. Recliner renovations accounted for the majority of the capital expenditures during 2016.

We expect gross capital expenditures for 2017 to total approximately \$700 million to \$750 million, with landlords contributing approximately \$150 million to \$170 million, resulting in a net cash outlay of approximately \$530 to \$600 million.

Balance Sheet

With respect to the balance sheet, we completed the year with \$207.1 million in cash and cash equivalents and a total debt balance of approximately \$4.44 billion.

Subsequent to year end, AMC completed a \$640 million offering of common stock, \$350 million of which was used to repay debt and the balance of which will be used to partially finance the Nordic acquisition.

Dividend

Consistent with our plans to augment shareholder returns through the return of capital, AMC's Board of Directors, at its regular board meeting on February 14, 2017, authorized the twelfth consecutive quarterly dividend of \$.20 per share, payable on March 27, 2017, to holders of record on March 13, 2017.

Since our IPO on December 18, 2013, AMC has returned approximately \$216.7 million to shareholders in the form of dividends or dividend equivalents.

(1) We present Adjusted EBITDA and Adjusted EBITDA Margin as a supplemental measure of our performance. We define Adjusted EBITDA as net earnings plus (i) income tax provision, (ii) interest expense and (iii) depreciation and amortization, as further adjusted to eliminate the impact of certain items that we do not consider indicative of our ongoing operating performance and to include any cash distributions of earnings from our equity method investees. These further adjustments are itemized above. You are encouraged to evaluate these adjustments and the reasons we consider them appropriate for supplemental analysis. In evaluating Adjusted EBITDA and Adjusted EBITDA Margin, you should be aware that in the future we may incur expenses that are the same as or similar to some of the adjustments in this presentation. Our presentation of Adjusted EBITDA and Adjusted EBITDA Margin should not be construed as an inference that our future results will be unaffected by unusual or non-recurring items. Adjusted EBITDA and Adjusted EBITDA Margin are non-GAAP financial measures and should not be construed as an alternative to net earnings or net earnings margin as an indicator of operating performance or as an alternative to cash flow provided by operating activities as a measure of liquidity (as determined in accordance with U.S. GAAP). Adjusted EBITDA and Adjusted EBITDA Margin may not be comparable to similarly titled measures reported by other companies. We have included Adjusted EBITDA and Adjusted EBITDA Margin because we believe it provides management and investors with additional information to measure our performance and estimate our value.

Adjusted EBITDA:

- does not reflect our capital expenditures, future requirements for capital expenditures or contractual commitments;
 - does not reflect changes in, or cash requirements for, our working capital needs;
 - does not reflect the significant interest expenses, or the cash requirements necessary to service interest or principal payments, on our debt;
 - excludes income tax payments that represent a reduction in cash available to us; and
 - does not reflect any cash requirements for the assets being depreciated and amortized that may have to be replaced in the future.
- (2) Amounts represent preopening expense related to temporarily closed screens under renovation, theatre and other closure expense for the permanent closure of screens including the related accretion of interest, non-cash deferred digital equipment rent expense, and disposition of assets and other non-operating gains or losses included in operating expenses. We have excluded these items as they are non-cash in nature, include components of interest cost for the time value of money or are non-operating in nature.
- (3) Other expense for the prior year quarter and prior year related to the cash tender offer and redemption of the 9.75% Senior Subordinated Notes due 2020 and Term Loan due 2022.
