 - Net earnings increased 149.9% to \$30.4 million and diluted earnings per share (“diluted EPS”) increased 158.3% to \$0.31 compared to \$12.2 million and \$0.12, respectively, for
-

the three months ended September 30, 2015. Net earnings margin for the third quarter was 3.9% compared to 1.8% for the same period a year ago.

·Adjusted diluted earnings per share ⁽¹⁾ (“adjusted diluted EPS”) increased 121.4% to \$0.31 compared to \$0.14 for the three months ended September 30, 2015. Included in adjusted diluted EPS for the three months ended September 30, 2016, and September 30, 2015, were approximately \$5.0 million and \$0.75 million of merger and acquisition costs, respectively.

·Adjusted EBITDA⁽¹⁾ increased 32.5% to \$144.4 million compared to \$109.0 million for the three months ended September 30, 2015. Adjusted EBITDA Margin⁽¹⁾ for the third quarter was 18.5% compared to 15.8%, for the same period a year ago.

·Adjusted Free Cash Flow⁽¹⁾ for the quarter ended September 30, 2016, increased 74.2% to \$21.6 million compared to \$12.4 million for the quarter ended September 30, 2015.

·During the third quarter of 2016, we completed a national relaunch of our AMC Stubs® loyalty program featuring both a traditional paid tier called AMC Stubs Premiere™ and a new non-paid tier called AMC Stubs Insider™. Both programs reward loyal guests for their patronage of AMC Theatres. As of June 30, 2016, prior to our national relaunch, we had 2,672,000 active member households in the AMC Stubs® program. As of September 30, 2016, we had more than 4,000,000 active member households enrolled in both the AMC Stubs Premiere™ and AMC Stubs Insider™ programs, combined. New members are enrolling in the new AMC Stubs® program at a rate greater than 11 times the number of enrollments during the same period in 2015. As of today, the number of active member households has already reached 4,500,000. We expect it to double again over the next 24 to 36 months.

“Fueled by both a commitment to deliver on our key priorities and a strong industry box office, AMC delivered another outstanding quarter, setting third quarter records on many fronts, and growing adjusted EBITDA nearly 33% and diluted EPS over 150%,” said Adam Aron, AMC Chief Executive Officer and President.

Aron added, “Progress continues on our key priorities as world-class marketing took center stage in the third quarter with the national relaunch of our AMC Stubs loyalty program. As we have previously reported, AMC Stubs was overwhelmingly received by guests as we blew through the 4 million active household member mark by late September and as of today exceeds 4.5 million household members. Scores of new guests were also introduced to the imaginative AMC theatre experience in the third quarter as we continued to invest in our innovative food and beverage services, recliner seating renovations and premium large format auditoriums. We believe our proven innovative guest amenities drive results across our existing circuit, and when combined with the more traditional exhibitor landscapes in Europe and the non-urban U.S. markets served by Odeon & UCI and Carmike Cinemas, respectively, we are very excited about our prospects for the upcoming 2017 and 2018 box office years and beyond.”

Highlights for the nine months ended September 30, 2016, include the following:

- AMC set all-time high records for the nine months ended September 30th period for all revenue segments: admissions revenues, food and beverage revenues and other revenues.
 - Total revenues increased 6.8% to \$2,309.8 million compared to total revenues of \$2,163.0 million for the nine months ended September 30, 2015.

 - Adjusted EBITDA⁽¹⁾ for the nine months ended September 30, 2015, benefited from an \$18.1 million gain related to the termination of a post-retirement health benefit plan which caused our net periodic benefit costs to be much lower than normal in the prior year. The gain was recorded as a reduction of general and administrative: other expense. Excluding this gain in the prior year period, Adjusted EBITDA growth, year-over-year for the nine months ended September 30, 2016, would have shown an improvement of approximately 15.4%, and Adjusted EBITDA Margin improvement of 140 basis points from 16.8% to 18.2%.

(1) Adjusted diluted earnings per share is diluted earnings per share excluding a non-recurring postretirement net periodic benefit credit in the prior year, a loss on redemption of our 9.75% Senior Subordinated Notes due 2020 in the prior year quarter and year, a gain on sale of our investments in Real D during the current year, a discrete tax benefit recorded in income tax provision during the prior year quarter and year and the related tax effects of those adjustments. We have included adjusted diluted earnings per share because we believe it provides investors with additional useful information on our performance and is used by management to assess our performance. We have calculated the tax effects of the pre-tax adjustments described above using our effective Federal and State income tax rate for current and deferred income taxes which is reflective of our estimated annual GAAP income tax rate forecast adjusted to account for items excluded from GAAP income. Adjusted diluted earnings per share is a non-GAAP financial measure and should not be used as an alternative to diluted earnings per share, and may not be comparable to similarly titled measures reported by other companies.

(2) We present Adjusted EBITDA and Adjusted EBITDA Margin as a supplemental measure of our performance. We define Adjusted EBITDA as net earnings plus (i) income tax provision, (ii) interest expense and (iii) depreciation and amortization, as further adjusted to eliminate the impact of certain items that we do not consider indicative of our ongoing operating performance and to include any cash distributions of earnings from our equity method investees. These further adjustments are itemized above. You are encouraged to evaluate these adjustments and the reasons we consider them appropriate for supplemental analysis. In evaluating Adjusted EBITDA and Adjusted EBITDA

Margin, you should be aware that in the future we may incur expenses that are the same as or similar to some of the adjustments in this presentation. Our presentation of Adjusted EBITDA and Adjusted EBITDA Margin should not be construed as an inference that our future results will be unaffected by unusual or non-recurring items. Adjusted EBITDA is a non-GAAP financial measure and should not be construed as an alternative to net earnings as an indicator of operating performance or as an alternative to cash flow provided by operating activities as a measure of liquidity (as determined in accordance with U.S. GAAP). Adjusted EBITDA may not be comparable to similarly titled measures reported by other companies. We have included Adjusted EBITDA and Adjusted EBITDA Margin because we believe it provides management and investors with additional information to measure our performance and estimate our value.

Adjusted EBITDA has important limitations as an analytical tool, and you should not consider it in isolation, or as a substitute for analysis of our results as reported under U.S. GAAP. For example,

Adjusted EBITDA:

- does not reflect our capital expenditures, future requirements for capital expenditures or contractual commitments;
- does not reflect changes in, or cash requirements for, our working capital needs;
- does not reflect the significant interest expenses, or the cash requirements necessary to service interest or principal payments, on our debt;
- excludes income tax payments that represent a reduction in cash available to us; and
- does not reflect any cash requirements for the assets being depreciated and amortized that may have to be replaced in the future.

- (3) Amounts represent reopening expense related to temporarily closed screens under renovation, theatre and other closure expense for the permanent closure of screens including the related accretion of interest, non-cash deferred digital equipment rent expense, and disposition of assets and other non-operating gains or losses included in operating expenses. We have excluded these items as they are non-cash in nature, include components of interest cost for the time value of money or are non-operating in nature.
 - (4) Other expense for the prior year quarter and prior year related to the cash tender offer and redemption of the 9.75% Senior Subordinated Notes due 2020. We exclude other expense and income related to financing activities as the amounts are similar to interest expense or income and are non-operating in nature.
 - (5) Merger, acquisition and transaction costs are excluded as it is non-operating in nature.
 - (6) Non-cash expense included in General and Administrative: Other
 - (7) We define Adjusted EBITDA Margin as Adjusted EBITDA divided by Total Revenues.
 - (8) Net Earnings Margin is Net Earnings divided by Total Revenues
 - (9) We use Adjusted Free Cash Flow as a performance measure in our internal evaluation of operating effectiveness and in making decisions regarding the allocation of resources. Adjusted Free Cash Flow is a non-GAAP financial measure and should not be construed as an alternative to net earnings as an indicator of operating performance or as an alternative to cash flow provided by operating activities as a measure of liquidity (as determined in accordance with U.S. GAAP). We define Adjusted Free Cash Flow as Adjusted EBITDA minus the sum of cash distributions from non-consolidated entities, cash taxes, cash interest, capital expenditures (excluding change in construction payables) net of landlord contributions, mandatory payments of principal under any credit facility and payments under capital lease obligations and financing lease obligations as further described in the table below. We make adjustments to Adjusted EBITDA for certain cash requirements to determine amounts available for general capital purposes from our operations. Adjusted Free Cash Flow may not be comparable to similarly titled measures reported by other
-

companies or other similar measures of cash flow. We have included Adjusted Free Cash Flow because it provides investors with additional useful information on our performance, and it is used by management to evaluate the performance of our Company.

Summary

We are very pleased with our record setting third quarter 2016, and we believe that the combination of our innovative strategic growth initiatives and an attractive fourth quarter box office slate creates the potential for another all-time high box office year for both AMC and the industry.

From an industry perspective, compared to the third quarter last year, the 2016 third quarter box office increased approximately 12.3% with industry attendance growing approximately 8.9%, on a 1.9% increase in industry screens. Similar to last year, the third quarter of 2016 was led by a family oriented animated film, *The Secret Life of Pets*, followed by *Suicide Squad*, *Jason Bourne*, *Star Trek Beyond* and rounding out the top five, *Finding Dory*.

Based on the success of our recliner renovations, enhanced food and beverage offerings, premium large format (“PLF”) auditoriums, including IMAX® at AMC and Dolby Cinema® at AMC, and contributions from our Starplex acquisition, we set third quarter records for all revenue segments in the third quarter of 2016. Total revenues increased 13.2% to \$779.8 million, and included \$496.7 million of admissions revenues (12.6% more than last year), \$248.9 million of food and beverage revenues (14.8% more than last year), and \$34.2 million of other theatre revenues (10.8% growth over last year).

When compared to the same quarter a year ago, third quarter 2016 total attendance increased 9.7% to 51.9 million and average ticket price for the quarter increased \$0.24 or 2.6% to \$9.57. The increase in average ticket price is due primarily to a combination of factors, including an increase in premium-format box office attendance, especially Dolby Cinema® at AMC where we added seven screens in the third quarter, and the anniversary of certain promotional pricing strategies implemented in last year’s third quarter, offset by the addition of Starplex theatres with a lower average ticket price. Excluding Starplex, AMC’s average ticket price for the quarter would have increased 5.5% compared to the same period last year. We expect the pricing impact from the Starplex theatres to continue for the remainder of 2016.

Our strategic initiatives continue to perform well, and we experienced a 6.6% increase in the number of average screens in the third quarter of 2016 due to the acquisition of Starplex and the completion of numerous recliner theatre renovations during the first nine months of 2016. The contribution from our strategic initiatives and the increase in screens were impacted by the lower productivity theatres located in the smaller, non-urban markets served by Starplex. Excluding the impact of Starplex theatres, admissions revenue per screen for the balance of the circuit was approximately in-line with the industry. We remain focused on improving the AMC guest experience which we believe will drive greater box office attendance, food and beverage revenues and ultimately operating earnings and cash flow.

Food and beverage continues to set records as we implement our enhanced food and beverage initiatives. Food and beverage revenues per patron set a third quarter record of \$4.80, growing 4.8% as food and beverage spend at both our core and recliner locations showed improvement. Our food and beverage gross margin for the third quarter improved 70 basis points to 86.4% compared to the third quarter last year, while our food and beverage gross profit per patron grew 5.3%, to set a third quarter record of \$4.14.

During the third quarter we deployed 12 new MacGuffin bars, 29 new Coca-Cola Freestyle® machines, four new digital menu boards, and nine new kiosks. At quarter-end, we had 19 dine-in-theaters and 158 MacGuffins bars in operation.

Other revenue for the quarter increased 10.8% to a third quarter record \$34.2 million compared to last year, due primarily to increases in internet ticketing fees, advertising revenues and gift card income.

AMC’s film exhibition costs for the third quarter increased \$25.7 million, or 11.0% to \$259.1 million compared to last year, and this represented 52.2% of admissions revenue, down 74 basis points compared to the third quarter last year.

Operating expenses for the third quarter were \$211.6 million, or 27.1% of total revenues as compared to \$195.5 million, or 28.4% of total revenues for the same quarter a year ago. Increases in revenues and effective cost management helped us offset increases in repairs and maintenance expense, equipment rentals related to our enhanced food and beverage initiatives, increases in payment processing costs and professional and consulting expenses in addition to the increases in expenses related to a 6.6% increase in average screens.

Rent expense for the third quarter increased 5.2% to \$121.9 million, on a 6.6% increase in the number of average screens, primarily related to the Starplex acquisition. Rent per average screen for the third quarter declined approximately 120 basis points compared to the same quarter last year.

General and administrative expenses for the third quarter increased 27.2% to \$24.7 million compared to the same quarter last year, as merger and acquisition expenses related to Carmike Cinemas, Inc. (“Carmike”) and Odeon & UCI Holdings Ltd. (“Odeon/UCI”) increased \$4.2 million, and salary and benefits, legal, and consulting expenses increased \$1.9 million, offset by a \$1.0 million decrease in development costs. Both the Carmike and Odeon acquisitions are expected to be completed by the end of the year, and based on that assumption, we expect acquisition expenses to increase in the fourth quarter so that total merger and acquisition expense for the year is between \$35 and \$37 million. The increase in merger and acquisition expenses relative to our previous estimates relates primarily to certain 2017 merger and acquisition expenses now expected to be recognized in 2016.

Depreciation and amortization increased 8.6%, to \$63.0 million in the third quarter compared to the same period last year. The increase was primarily attributable to an increase in depreciable assets resulting from the Starplex acquisition and the continued investment in our strategic growth initiatives. We anticipate completing several spot acquisitions and investing in our theatres at similar levels through the remainder of 2016, resulting in additional increases in depreciable assets. As a result, we expect depreciation and amortization to grow approximately 5% to 7%, sequentially in the fourth quarter of 2016.

Net earnings for the third quarter increased 149.9% to \$30.4 million and diluted earnings per share (“diluted EPS”) increased 158.3% to \$0.31 compared to the same quarter a year ago. Net earnings margin for the third quarter was 3.9% compared to 1.8% for the same period a year ago.

·Net earnings for the third quarters ended September 30, 2016 and September 30, 2015, included approximately \$5.0 million and \$0.75 million, of merger and acquisition costs, respectively.

Adjusted diluted earnings per share (“adjusted diluted EPS”) for the three months ended September 30, 2016 increased 121.4% to \$0.31 per diluted share as compared to \$0.14 for the prior year period.

In total during the quarter, we acquired 15 screens, temporarily closed 263 screens, and reopened 209 screens to implement our strategy and deploy guest experience upgrades. Average screens fluctuate as a result of acquisitions and the timing of when screens are closed and reopened for renovations. For the fourth quarter of 2016, we expect average screens to be approximately 5,300.

Adjusted EBITDA for the third quarter of 2016 increased 32.5% to \$144.4 million and Adjusted EBITDA Margin increased 270 basis points to 18.5% compared to 15.8% for the third quarter last year. Adjusted EBITDA was primarily impacted by increases in attendance including the benefit of the Starplex acquisition and average ticket prices, increases in food and beverage revenues per patron, increases in other revenues, and partially offset by decreases in cash distributions from non-consolidated entities and the increases in professional and consulting costs and revenue deferrals associated with AMC Stubs® relaunch.

Nine Months Ended September 30, 2016

The industry box office continued to exceed prior year for the nine months ended September 30, 2016. The industry box office grew approximately 4.3% to \$8.6 billion, driven primarily by pricing, with industry average ticket price growing approximately 3.2% and industry attendance growing approximately 1.1% compared to the same period a year ago.

As with our third quarter revenue segments, for the nine months ended September 30, 2016, all of our revenue segments set year-to-date through September 30th records as AMC's total revenues grew 6.8% to \$2.31 billion compared to \$2.16 billion in the same period a year ago. Total revenues for the 2016 nine month period included \$1.46 billion of admissions revenues (4.8% growth over last year), \$736.6 million of food and beverage revenues (10.3% growth over last year), and \$112.6 million of other theatre revenues (10.5% growth over last year).

Operating expense for the nine month period increased 4.4% to \$613.9 million compared to \$588.2 million in the nine-month period a year ago, primarily due to a 5.0% increase in attendance.

General and administrative expenses for the nine-month period increased 68.4% to \$74.0 million from \$44.0 million in the same period a year ago. Merger and acquisition costs increased approximately \$12.5 million during the nine month period compared to a year ago related to our proposed Carmike and Odeon/UCI acquisitions. General and administrative expense for the nine months ended September 30, 2015, benefited from an \$18.1 million gain related to the termination of a post-retirement health benefit plan which caused our net periodic benefit costs to be much lower than normal in the prior year.

Net earnings for the nine-month period increased 32.9% to \$82.7 million and diluted earnings per share increased 33.3% to \$0.84 compared to the nine month period a year ago. Net earnings margin for the nine-months ended September 30, 2016 was 3.6% compared to 2.9% for the same period a year ago.

- Net earnings for the nine-month period ended September 30, 2016, includes a \$3.0 million gain on the sale of RealD stock
- Net earnings for the nine months ended September 30, 2016 and September 30, 2015, includes \$15.1 million and \$2.6 million of merger and acquisition costs, respectively.
- Net earnings for the nine-month period ended September 30, 2015 includes a \$9.3 million loss on extinguishment of indebtedness related to the cash tender offer and redemption of the 9.75% Senior Subordinated Notes due 2020, and a \$1.7 million discrete tax benefit recorded in income tax provision.

Excluding the benefit of the \$3.0 million gain from the sale of RealD stock in the current nine month period, the \$9.3 million loss on extinguishment of indebtedness, the \$1.7 million discrete tax benefit, and the \$18.1 million gain related to the termination of a post-retirement health benefit plan in the prior year nine month period, adjusted diluted earnings per share for the nine month period ended September 30, 2016 would have increased 46.4% to \$0.82 per diluted share as compared to \$0.56 for the prior year period.

Adjusted EBITDA for the nine months ended September 30, 2016 grew 9.9% to \$420.4 million compared to \$382.4 million in the year ago period. Adjusted EBITDA margin for the 2016 nine month period increased 50 basis points to 18.2% as compared to 17.7% in the same period a year ago. Adjusted EBITDA for the nine months ended September 30, 2015, also benefited from the \$18.1 million gain mentioned above. Excluding

this \$18.1 million gain in the prior year, Adjusted EBITDA growth year-over-year for the nine months ended September 30, 2016, would have shown an improvement of approximately 15.4% and Adjusted EBITDA margin improvement of 140 basis points from 16.8% to 18.2%.

Capital Expenditures

Total gross capital expenditures for the three month period ended September 30, 2016, totaled \$116.2 million and after approximately \$29.5 million of landlord contributions yielded net capital expenditures of \$86.7 million. Recliner theatres accounted for the majority of the capital expenditures during the third quarter of 2016.

We expect capital expenditures for 2016 to total approximately \$400 million to \$420 million, with landlords contributing approximately \$120 million to \$130 million, resulting in a net cash outlay of approximately \$280 to \$300 million.

Adjusted Free Cash Flow

Adjusted Free Cash Flow for the three months ended September 30, 2016, increased 74.2% to \$21.6 million from \$12.4 million in the year ago period.

For the nine month period ended September 30, 2016, Adjusted Free Cash Flow increased 34.1% to \$134.5 million from \$100.3 million in the year ago period. Our ability to utilize Tax Net Operating Loss Carryforwards to reduce cash taxes enables us to convert a higher percentage of Adjusted EBITDA to Adjusted Free Cash Flow, and that cash flow can then be reinvested in the circuit through our strategic initiatives or used to grow the company through acquisitions. Given that our recliner renovations continue to generate cash-on-cash returns in excess of 25%, we expect to continue using Adjusted Free Cash Flow for reinvestment and attractive acquisition opportunities.

Balance Sheet

With respect to the balance sheet, we completed the third quarter with \$46.3 million in cash and a total debt balance of approximately \$1.949 billion.

As of September 30, 2016, our leverage ratio was roughly 3.3 times net debt to last twelve months Adjusted EBITDA, which is well within our comfort range. Our leverage, cash flow generation and liquidity are all in line with expectations.

Impact to 2016 Adjusted EBITDA from AMC Stubs[®] Re-Launch

On July 11, 2016, AMC re-launched our new and updated loyalty program, AMC Stubs[®], with two new tiers, a paid tier – *AMC Stubs[®]: Premiere* priced at \$15.00 per year and a free tier – *AMC Stubs[®]: Insider*. Both tiers offer exciting new loyalty rewards with the objective of providing a better theatre experience and ultimately attracting, growing and retaining our most valuable guests.

As of September 30, 2016, we had exceeded 4 million active household members, a nearly 50% increase from our pre-relaunch membership levels, and as of today, the number of active member households has already reached 4.5 million. We expect it to double again over the next 24 to 36 months.

We believe the refreshed AMC Stubs® program will drive incremental attendance and food and beverage spend in 2016 and beyond. As we learned when we first introduced the AMC Stubs® program five years ago, however, there is a ramp up phase in the first nine to twelve months of a new loyalty program related to start-up costs, changes in reward structure and build-up of deferred revenues for earned rewards which will result in future benefit when they are redeemed and recognized as revenues.

At the beginning of the third quarter of 2016, as a result of the AMC Stubs relaunch ramp up, we estimated that adjusted EBITDA for the remaining two quarters of 2016 would be reduced by between \$8 and \$10 million. For the third quarter ended September 30, 2016, the AMC Stubs relaunch ramp up reduced adjusted EBITDA by approximately \$5.0 million. Because the membership levels have grown at a rate significantly higher than expected, we expect the continued ramp up of the AMC Stubs program will reduce adjusted EBITDA by between \$5 and \$7 million in the fourth quarter of 2016. We expect the program to be accretive to adjusted EBITDA in 2017 and beyond.

Dividend

Consistent with our plans to augment shareholder returns through the return of capital, AMC's Board of Directors, at its regular board meeting on November 3, 2016, authorized the eleventh consecutive quarterly dividend of \$.20 per share, payable on December 19, 2016, to holders of record on December 5, 2016.

Since our IPO on December 18, 2013, AMC has returned approximately \$196.3 million to shareholders in the form of dividends or dividend equivalents.

- 1) Adjusted diluted earnings per share is diluted earnings per share excluding a non-recurring postretirement net periodic benefit credit in the prior year, a loss on redemption of our 9.75% Senior Subordinated Notes due 2020 in the prior year quarter and year, a gain on sale of our investments in Real D during the current year, a discrete tax benefit recorded in income tax provision during the prior year quarter and year and the related tax effects of those adjustments. We have included adjusted diluted earnings per share because we believe it provides investors with additional useful information on our performance and is used by management to assess our performance. We have calculated the tax effects of the pre-tax adjustments described above using our effective Federal and State income tax rate for current and deferred income taxes which is reflective of our estimated annual GAAP income tax rate forecast adjusted to account for items excluded from GAAP income. Adjusted diluted earnings per share is a non-GAAP financial measure and should not be used as an alternative to diluted earnings per share, and may not be comparable to similarly titled measures reported by other companies.
- 2) We present Adjusted EBITDA and Adjusted EBITDA Margin as a supplemental measure of our performance. We define Adjusted EBITDA as net earnings plus (i) income tax provision, (ii) interest expense and (iii) depreciation and amortization, as further adjusted to eliminate the impact of certain items that we do not consider indicative of our ongoing operating performance and to include any cash distributions of earnings from our equity method investees. These further adjustments are itemized above. You are encouraged to evaluate these adjustments and the reasons we consider them appropriate for supplemental analysis. In evaluating Adjusted EBITDA and Adjusted EBITDA Margin, you should be aware that in the future we may incur expenses that are the same as or similar to some of the adjustments in this presentation. Our presentation of Adjusted EBITDA and Adjusted EBITDA Margin should not be construed as an inference that our future results will be unaffected by unusual or non-recurring items. Adjusted EBITDA is a non-GAAP financial measure and should not be construed as an alternative to net earnings as an indicator of operating performance or as an alternative to cash flow provided by operating activities as a measure of liquidity (as determined in accordance with U.S. GAAP). Adjusted EBITDA may not be comparable to similarly titled measures reported by other companies. We have included Adjusted EBITDA and Adjusted EBITDA Margin because we believe it provides management and investors with additional information to measure our performance and estimate our value.
- Adjusted EBITDA has important limitations as an analytical tool, and you should not consider it in isolation, or as a substitute for analysis of our results as reported under U.S. GAAP. For example,
- Adjusted EBITDA:
- does not reflect our capital expenditures, future requirements for capital expenditures or contractual commitments;
 - does not reflect changes in, or cash requirements for, our working capital needs;
 - does not reflect the significant interest expenses, or the cash requirements necessary to service interest or principal payments, on our debt;
 - excludes income tax payments that represent a reduction in cash available to us; and
 - does not reflect any cash requirements for the assets being depreciated and amortized that may have to be replaced in the future.
- 3) Amounts represent preopening expense related to temporarily closed screens under renovation, theatre and other closure expense for the permanent closure of screens including the related accretion of interest, non-cash deferred digital equipment rent expense, and disposition of assets and other non-operating gains or losses included in operating expenses. We have excluded these items as they are non-cash in nature, include components of interest cost for the time value of money or are non-operating in nature.
- 4) Other expense for the prior year quarter and prior year related to the cash tender offer and redemption of the 9.75% Senior Subordinated Notes due 2020. We exclude other expense and income related to financing activities as the amounts are similar to interest expense or income and are non-operating in nature.
- 5) Merger, acquisition and transaction costs are excluded as it is non-operating in nature.
- 6) Non-cash expense included in General and Administrative: Other
- 7) We define Adjusted EBITDA Margin as Adjusted EBITDA divided by Total Revenues.

8) Net Earnings Margin is Net Earnings divided by Total Revenues

9) We use Adjusted Free Cash Flow as a performance measure in our internal evaluation of operating effectiveness and in making decisions regarding the allocation of resources. Adjusted Free Cash Flow is a non-GAAP financial measure and should not be construed as an alternative to net earnings as an indicator of operating performance or as an alternative to cash flow provided by operating activities as a measure of liquidity (as determined in accordance with U.S. GAAP). We define Adjusted Free Cash Flow as Adjusted EBITDA minus the sum of cash distributions from non-consolidated entities, cash taxes, cash interest, capital expenditures (excluding change in construction payables) net of landlord contributions, mandatory payments of principal under any credit facility and payments under capital lease obligations and financing lease obligations as further described in the table below. We make adjustments to Adjusted EBITDA for certain cash requirements to determine amounts available for general capital purposes from our operations. Adjusted Free Cash Flow may not be comparable to similarly titled measures reported by other companies or other similar measures of cash flow. We have included Adjusted Free Cash Flow because it provides investors with additional useful information on our performance, and it is used by management to evaluate the performance of our Company.
